Tech Stack

Languages

TypeScript · JavaScript · Python ·
Java · C++ · Ruby

Frontend & Mobile

React · Next.js · React Native · Expo ·
Expo Router · Tailwind CSS ·
NativeWind · Framer Motion ·
shadcn/ui · Lucide React · next-
themes

Backend & Database

Node.js · Express · Supabase ·
PostgreSQL · MongoDB · Prisma ·
Edge Functions · Vision API · Gemini
· Resend · Sentry

Tools & Infrastructure

Git · Vercel · EAS Build/Submit ·
TanStack Query · Ollama LLM · TF-
IDF · RAG · WordPress

Open Source ★★★★★

synthwave-vscode (5k+ stars)

Contributed CSS and JavaScript patches
improving syntax token coverage and UI
panel consistency across 100k+ active
installs.

withastro/docs (1k+ stars)

Optimised build pipeline performance
and resolved accessibility issues,
improving screen reader support and
keyboard navigation.

Education

INTI International University 2023 - 2026

B.Sc. Computer Science (Hons)

Software Engineering Online Learning (Working Adults)

CGPA: 3.87 / 4.00

Semester 14 of 16

Malaysian Global Innovation & OCT - DEC 2015

Creativity Centre (MaGIC) /

Next Academy, Cyberjaya

MaGIC Scholar (Full-Stack Coding Bootcamp)

*Government-backed scholarship selected via
competitive interview. Passed 2 progressive technical
assessments and completed a final project to graduate.*

University of Queensland, Australia 2007 - 2009

Bachelor of Arts (Economics)

International Education Services, FEB - DEC 2006
Queensland, Australia

Foundation Studies (Economics)

Projects

LeapZone

Production app on TestFlight (iOS) and Google Play Console
(Android), built solo end-to-end as a multi-tenant pickleball club
management platform. Features 5-tier RBAC with PostgreSQL Row
Level Security for full per-club data isolation, a per-player
performance engine with match history, win rates and streak
tracking, and AI coaching insights via Vision API and Gemini.

Stack: React Native · Expo SDK 54 · Supabase · PostgreSQL ·
TypeScript · TanStack React Query · Expo Router · NativeWind ·
Gemini · EAS

Pickle Crew KL

Built a full stack community sports platform with session scheduling,
match tracking, and a live leaderboard. Developed an admin
dashboard, QR code invitations, automated email digests, visitor
analytics, AI powered scoresheet extraction, production monitoring,
and database level security with RLS.

Stack: Next.js 15 · Supabase · PostgreSQL · TypeScript · Tailwind
CSS · shadcn/ui · Resend · Sentry · Vision API · Gemini · Vercel

ABU HAZRI BIN ABU HURAIRA

SOFTWARE ENGINEER & DEVELOPER

Coding Achievement

Codewars (Rank: 6 kyu)

- 37 kata completed.
Top 59.6% globally JavaScript.
- Peer-ranked platform using a martial arts belt system (8 kyu beginner to 1 dan master).
- 6 kyu covers complex algorithms, closures, OOP patterns, and advanced regular expressions.
- All 37 kata completed pre-AI era.

Chingu Alumni (2x Voyage Graduate)

- Completed 2 competitive 6-week remote team Voyages as part of international groups of 5 developers.
- **Voyage 1** - Momentum browser extension clone. A new-tab productivity app with clock, focus goal, and dynamic backgrounds.
- **Voyage 2** - Museum & Art Interactive Brochure. Visitors scan QR codes to explore art pieces and exhibits digitally.

Work Experience

RPMY

2025 - present

Cybersecurity Collaborator

- Collaborated on cybersecurity initiatives encompassing threat analysis, security assessments, and defensive tooling
- Applied CS and software engineering fundamentals to real-world cyber risk and mitigation strategies
- Engaged in knowledge-sharing across network security, vulnerability assessment, and secure system design

HY Connections Sdn. Bhd.
(Parent of Equinox8)

2016 - present

Head of Operations

- Led operational strategy and internal process optimisation, overseeing cross-functional team execution

Projects

Personal Portfolio

Production-ready personal portfolio with a bento-grid layout, 20+ purpose-built components, and Framer Motion animations. Custom typewriter animation built without any library dependency.

Stack: [Next.js 16](#) · [React 19](#) · [TypeScript](#) · [Tailwind CSS](#) · [Framer Motion](#) · [next-themes](#)

Equinox8

Production digital agency website with glassmorphic dark-mode UI, animated mesh grid, and a custom orbital particle hero system. Built with an 8-component modular architecture, SSR, next/font optimisation, and full Open Graph/SEO metadata.

Stack: [Next.js 16](#) · [React 19](#) · [TypeScript](#) · [Tailwind CSS](#) · [Framer Motion 12](#) · [Lucide React](#)

AI Trip Planner

Multi-agent travel assistant using TF-IDF semantic matching, Retrieval-Augmented Generation (RAG), and a locally hosted Ollama LLM to generate personalised travel itineraries based on number of travellers, trip duration, and budget allocation.

Stack: [Next.js](#) · [TypeScript](#) · [Python](#) · [Ollama LLM](#) · [TF-IDF](#) · [RAG](#)

Flighty MY

Clone of the Apple Design Award-winning Flighty app. Global real-time flight tracker with live status updates, delay alerts and dark mode.

Stack: [React Native](#) · [Expo](#) · [NativeWind](#)

Equinox8

2012 - 2014

Head of Client Services

- Managed a marketplace-style e-commerce platform with 10,000+ products — predating Lazada and Shopee in Malaysia
- Oversaw end-to-end client services and logistics, coordinating between suppliers and Pos Malaysia for fulfillment

Self-Employed

2017 - present

Freelance Web Developer

- Delivered end-to-end corporate web solutions for clients including Prudential Insurance Malaysia
Managed full project lifecycle from requirements gathering through design, development, and deployment
